Character Introduction

Kobayashi Hiro
(2nd Year of High School)

He spent his days scorned as the "UFO" boy because of a "lie" he told 10 years ago. While he is in love with Kobato Kana he was selected as the "Hero that will protect the Earth", he's a 16 year-old with a lot of troubles.

Yamada Meteor
(2nd Year of High School)

Age Unknown. She's an Adilian member of the Administration Bureau of the Space Union. With her super power she can destroy giant meteorite monsters with a single blow but she's really unfamiliar with common sense.

Saegusa Yuzu
(2nd Year of High School)

Hiro's neighbor and childhood friend. She has great reflexes and she sometimes gets really violent but, she also has a "maiden" side? She's Kobato's best friend and the girl with the tiniest breasts in class.

Kobato Kana
(2nd Year of High School)

Yuzu's best friend and some sort of class idol. She's calm and gentle but she's also a natural airhead. Her breasts being too big is the source of her worries. She has the biggest breasts in class.

Tanaka Omega
(2nd Year of High School)

A 10 year old super genius girl that skipped grades until 2nd year of high school. She's a highly efficient android and a member of the Administration Bureau of the Space Union. She likes Kobato who gave her a ribbon.
